Subject: You visit to Canada

Fakir Bhai:

Thank you for taking the trouble of taking this painstaking trip to Canada. My heart and soul is with you. Below please find my suggestion for the agenda. It is just for your personal use and not meant to be a dictation. Off course, you will do what you feel is the best interest of our membership.

But we must move fast and get over with the matter as soon as possible.

Agenda for discussion in Canada trip
(My suggestions)

1. The name selection and immediate registration to follow. Looking at the confusion of our friends in BD, I feel, we should choose a name that will cover membership all over the world including BD. The new organization that we are going to organize must include anyone wants to be in it. It should all inclusive of anyone in any part of the world.
2. Based on the above, we should then draft an all-inclusive constitution. All-inclusive to mean, the membership will dictate the terms what to be done and not a group of government servants. This would enable us a fair way of dealing with funds for Marine Academy development ourselves instead of relying on bickering in BD.
3. Website: We have launched the website. A new feature is going to be included where people can write and be responded. In it, we are going to post our new constitution as soon as possible for comments by all membership round the world.
4. The website will also be a forum for discussion amongst membership; i.e. democratic and civil set up, where we can share views candidly.
5. The theme of the association will be Improvement of our beloved Academy and the Cadets including camaraderie between alumnus.

Regards and good luck
Suhrawardi
